Don:

Per our telephone conversation today, I am attaching a list of CIA publications<sup>25X1</sup> for Sen. Nunn and Arnold Punaro (SAS Minority Staff Director) to read at SSCI sometime between 7-21 November 1984 in preparation for their forthcoming trip to South Asia. The pubs should not be removed from SSCI offices. Many of them are very sensitive, and you should alert them to our security concerns. If anything from my list is missing from your files, please let me know.

Thanks for your cooperation.
